Credit-Bearing Service Learning Opportunities:
Volunteer opportunities include assisting in the Activities Department (especially in the memory support unit), Pastoral Care Department, Physical/Occupational/Speech Therapy or Social work.

Students need to fill out a volunteer application that requires one to complete a background check and TB test (if you haven’t had one within the past 6 months – needs to be in both arms). Both the background check and TB tests are free if done through Bayley. This is about a 2-week process, so the service learner needs to be self-driven and take initiative in getting this process started.

We are interested in raising awareness about its symptoms, possible prevention, and the risk of cannabis to trigger psychosis. We emphasize that schizophrenia, as well as related disorders and comorbidities, are treatable brain disorders.

**Credit-Bearing Service Learning Opportunities:**
We are beginning CURESZ Clubsz at colleges in the Tri-State to provide educational activities for students and help share needed information about brain disorders. We would like to recruit leaders who will help us found and develop more Clubsz at college level. The goal is to help students recognize the symptoms of severe mental illness in themselves and others and seek help early for the best prognosis. We hope to encourage students to be a friend to their peers who have brain disorders. This will be a time-consuming commitment, probably a few hours a week. If possible, we would like the leaders of CURESZ Clubsz to work together to create new materials for their Clubsz that can also be used by other Clubsz. We are also interested in working with business majors who can fundraise for CURESZ and promote our organization.

**Project-Based Service Learning Opportunities:**

It is challenging to find opportunities to present at high schools. We hope that students can come up with creative ideas for reaching all students and young adults age 15-25. We are always looking for videographers to record videos for our YouTube Channel and business majors and communication majors to fundraise for CURESZ and promote CURESZ, primarily via social media. We are also looking for an app developer.
