

## How to: Find a Job Posting

- When you are on the “Home” page you will find all the upcoming events and announcements.
- You will also find “recommended job listings.” This will show a few positions that are generated as being appropriate for you based on your created profile.

- There is also the OCI and Job Listings tab on the left hand side.

(See next page)

- In this tab you will see the “job listing” section at the top of the page. These are positions posted by our staff and employers we work directly with. If you are interested in any of these positions please make your co-op coordinator aware that you are applying.
